DETAILED ACTION

Response to Arguments

Applicant's arguments, see Amendment - After Non-Final Rejection, filed 09/13/2007, with respect to claims 1 and 6 have been fully considered and are persuasive. The rejections of claims 1 and 6 have been withdrawn.

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-12 are allowed because a comprehensive search of prior art failed to teach, either alone or in combination, a method in an OFDM direct conversion receiver configured for receiving a wireless signal carrying data, the method including recovering first and second components from the wireless signal by mixing the wireless signal with first and second carrier frequency signals, respectively, the second carrier frequency signal phase-shifted by a prescribed amount relative to the first carrier frequency signal, determining first and second DC offset components based on filtering prescribed subcarrier components from a prescribed preamble portion of each of the first and second components, respectively, and outputting corrected first and second components of the wireless signal, for recovery of the data, based on removing the first and second DC offset components from the first and second components, respectively; and an OFDM direct conversion receiver configured for receiving a wireless signal carrying data, the receiver including an analog front end configured for recovering first and second components from the wireless signal by mixing the wireless signal with first
